

Syntrode with Pt1000 (length 36.8 cm)

6.0248.600

Combined pH electrode with integrated Pt1000 temperature sensor, installation length 28.8 cm. This electrode is well suited:

- for use in synthesis and bioreactors, e.g., STAT titrations
- at elevated temperatures
- for long-term measurements

Thanks to the fixed ground-joint diaphragm, the electrode is insensitive to contamination, and it is equipped with a storage vessel for the reference electrolyte.

Reference electrolyte: $c(\text{KCl}) = 3 \text{ mol/L}$, storage in storage solution.

Alternatively: reference electrolyte for measurements at $T > 80^\circ\text{C}$: Idrolyte, storage in Idrolyte.

Order no.	Description	
6.2325.000	pHit kit Maintenance kit for pH electrodes The kit contains: • 50 mL cleaning solution • 50 mL 3M KCl solution • 50 mL storage solution • 2 Storage vessels • Instructions for use	
6.2308.020	Electrolyte 3 mol/L KCl (250 mL) Electrolyte solution $c(\text{KCl}) = 3 \text{ mol/L}$, (for Ag/AgCl reference systems)	
6.2308.040	Idrolyte (250 mL) Idrolyte (for 6.0224.100 Electrode and Unitrode at $T > 80^\circ\text{C}$)	
6.2104.600	Electrode cable for plug in head U/plug F, 2x2 mm B, 1m For connecting electrodes with Metrohm plug-in head U to Metrohm instruments (socket F).	

6.2104.610

Electrode cable for plug in head U/plug F, 2x2 mm B, 2m

For connecting electrodes with Metrohm plug-in head U to Metrohm instruments (socket F).

6.2103.150

Adapter red 4 mm plug / 2 mm soc

Adapter for connecting electrodes with 2 mm plug to instruments with 4 mm socket (banana)

6.2323.000

Storage solution

Storage solution for all combined pH glass electrodes with reference electrolyte $c(\text{KCl}) = 3 \text{ mol/L}$

6.2325.100

Cleaning solution 3 x 50 mL

Reliable measuring results over long periods of time can be guaranteed only if the pH glass membrane and the diaphragm receive preventive and regular care. Cleaning by etching with toxic chemicals or applying mechanical treatment to the diaphragm is not only complicated and expensive, it also accelerates the ageing of the pH glass electrode. The cleaning solution was developed for easy and gentle cleaning of pH glass electrodes. Regular use can considerably prolong their service life.

This cleaning solution is also part of the pHit kit.
